

BROKEN BONES

SINGLE MALT WHISKY CASK OFFER

Broken Bones Whisky

One of the finest and rarest whiskies in the world

The desire to create our own whisky led us to open a distillery in Ljubljana, the capital of Slovenia—a city with no prior distilling tradition.

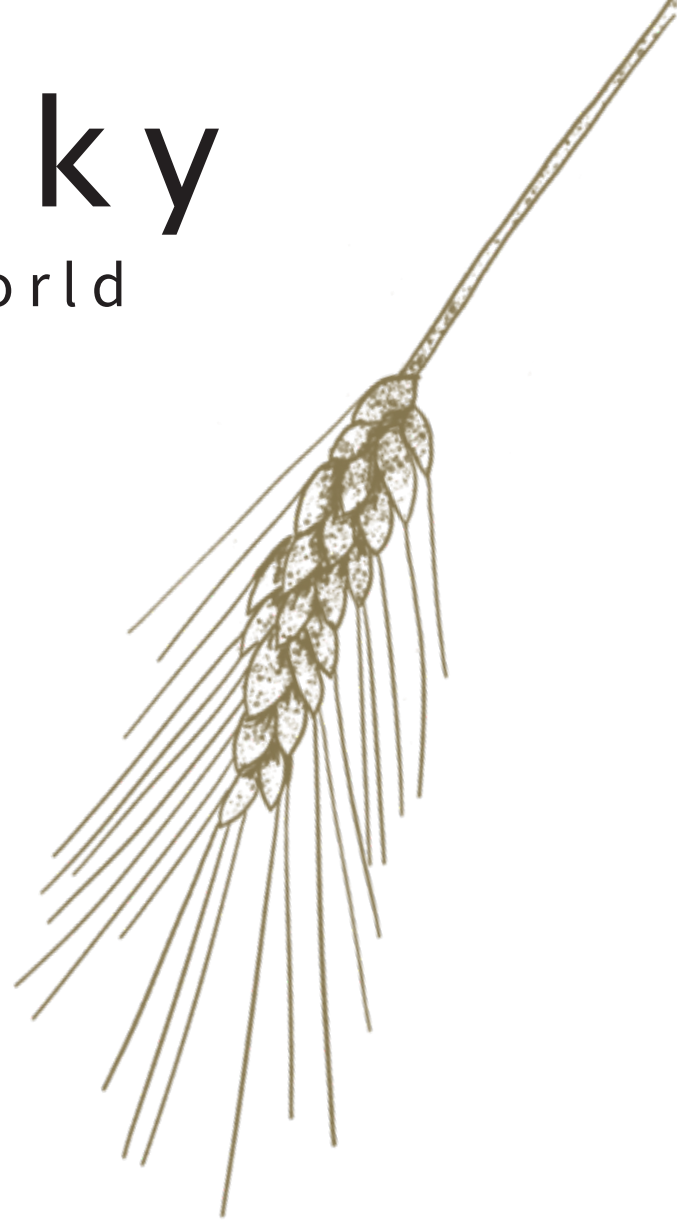

Our hands-on, learn-by-doing approach involved five years of exploration and experimentation with various types of malt, yeast, fermentation durations, and barrel combinations. Using a still we designed and built ourselves, we have crafted one of the finest and rarest whiskies in the world:

- **Broken Bones Single Malt Whisky:** Flawlessly made and matured, provides experience combination of fruit, vanilla, tannins in perfect balance.
- **Broken Bones Peated Single Malt Whisky:** A smoky mocha with sweetness, biscuity notes and definite pit.

In 2024, with the addition of new equipment, we are expanding our production capacity from 10 barrels to 50 barrels per year, allowing us to offer our rare spirit in the form of new make barrels.

Broken Bones whiskies are not only rare but also exceptional. Our debut whisky earned a remarkable 91 points in Jim Murray's *Whisky Bible 2022*, with the praise, *'One of the most fascinating malts of the year.'* This distinction made it the first Slovenian whisky—and the first from the entire Balkans—to be featured in this prestigious guide.

In the *Whisky Bible 2024*, our 4-year-old whisky was awarded an impressive 96 points, with the comment, *'This is rapidly becoming one of the greatest malts on mainland Europe... one of the most fascinating distilleries in the world.'*

What You Get

Price:

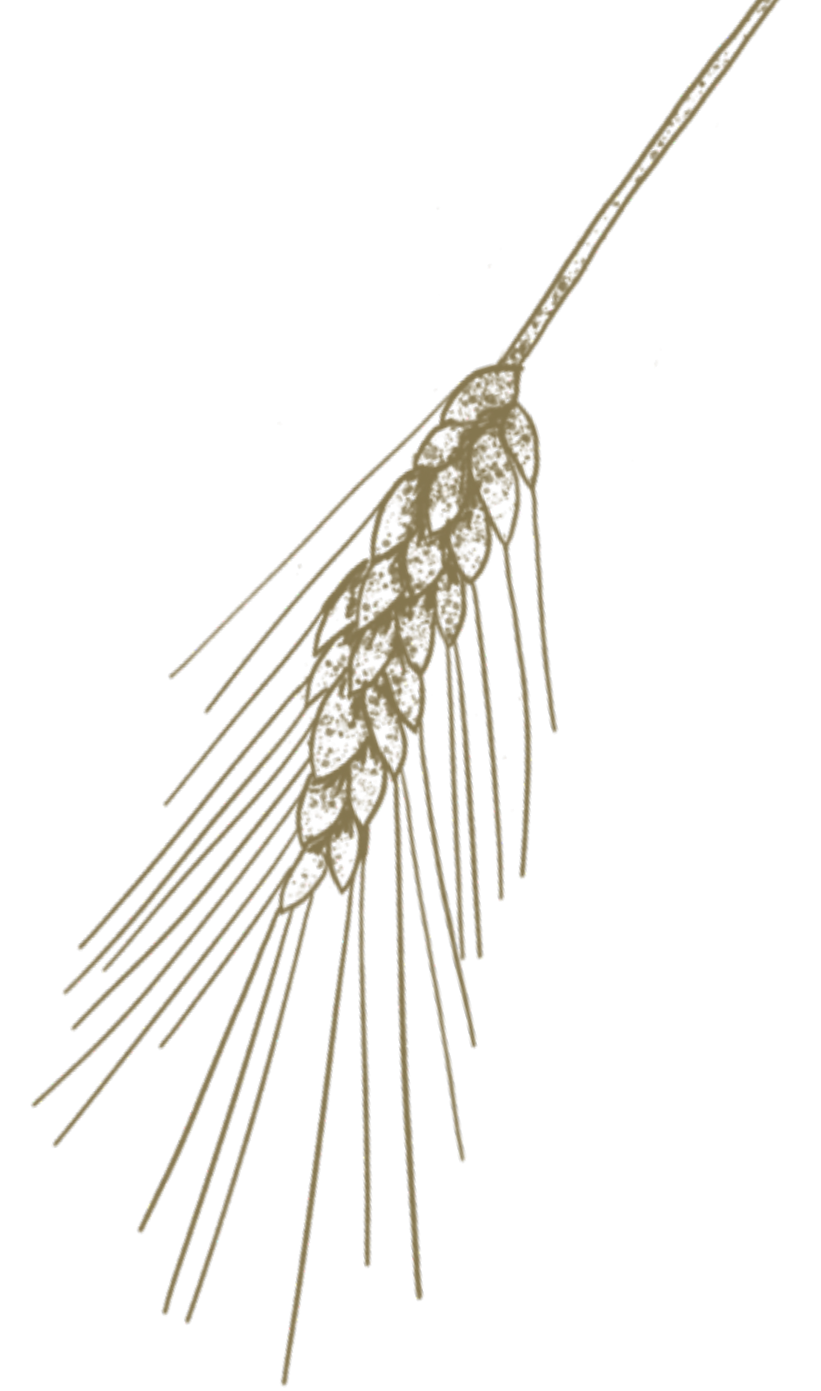

- unpeated 3.500 € (w/o VAT)
- peated 4.000 € (w/o VAT)
